ABSTRACT

English manuscript: Only English abstract is requested and needs to exceed 300 words. The name(s) of the author(s) should appear below the title. The corresponding author should be marked with a superscript “ ” and her/his corresponding e-mail address should appear at the end of the title page. The affiliation(s) of the author(s) (10 pt, numbered 1, 2, ...) should also appear at the end of the title page. The title of the paper should be concise, informative and in capital letters. The title page should contains title (16 pt, bold, center), author(s) (12 pt, center), abstract (10 pt), keywords (10 pt), section heading (using font size of 14pt, Bold) should be centered, sub-sections (using font size of 12pt, Bold).

Keywords: Each paper should have abstract(s) and keywords (two to five words). The keywords are given right after the abstract. composite breakwater, elastic materials, porous structures, submerged breakwater.

1. INTRODUCTION

The manuscript in Word file should be submitted via email: Marine.Research@namr.gov.tw.

2. Research Methods

2.1 Format

Paper should be written in English (10-pt Times New Roman for text). Manuscripts should be typed, single-spaced, on standard white paper measuring 21cm×30 cm (A4 format).

Fig. 1. Schematic diagram of wave flume. (a) x-z plane; (b) x-y plane.

2.2 Nomenclature

All symbols and units should be properly defined when they first appear in the text.

Table 1. List of wave conditions for numerical experiments.

| Case no. | A_0/d | Fresh water density (g/cm ³) | Dense water density (g/cm ³) |
|----------|---------|------------------------------------------|------------------------------------------|
| A | 0.1 | 1.0 | 1.0 |
| B | 0.1 | 1.0 | 1.01 |

3. RESULTS AND DISCUSSION

Authors are responsible for the contents of their manuscript and they guarantee that the work contains no infringement of law or unlawful statements or opinion or infringements of copyright laws of other journals or articles.

$$\frac{\partial u_i}{\partial x_i} = 0 \quad (1)$$

4. CONCLUSIONS

Headings for sections should be centered on the page with numbering. Headings for subsections which are also numbered should start from the left-hand margin.

ACKNOWLEDGEMENTS

Acknowledgements are requested to provide in English.
